

# When Innovation and Performance Counts...

## ... Count on Dynamax Inc.

In the medical device industry, **performance is critical** – whether it's connectors for diagnostic machines or components for life-saving implants.

### Components for Life

Dynamax Inc. has been providing its customers with contract manufacturing excellence for over 25 years. We are a leader in value-added engineering and high-precision micro-injection molding, tooling and machining for the medical, aerospace and defense industries.

Our vertically integrated engineering and manufacturing team works closely with our customers to develop **innovative solutions** and deliver **precision performance**.

**Put the Dynamax team to work for you.**

DESIGN • MANUFACTURING • PERFORMANCE

#### High Precision Contract Manufacturing

- Design to Part < 3 Weeks
- Small & Micro Components
- Injection & Insert Molding
- Moldmaking & Design
- CNC Turning and Milling
- EDM & Swiss Machining
- High Glass Content Plastics
- Thermoplastics & Thermosets
- Silicone & Epoxies
- Standard & Exotic Metals
- Robotic Automation
- ISO 9001:2008
- AS9100 Rev C
