FOR IMMEDIATE RELEASE

Dynomax Inc has secured a new strategic partner, YASKAWA MOTOMAN

Wheeling IL, July 25, 2013 - At Dynomax, we help our customers reap the benefits of an automated process for their unique applications. By utilizing the most sophisticated advances in manufacturing technology, Dynomax provides flexible automated solutions that enable customers to reduce costs, improve quality, and increase industrial productivity. These benefits give them a definite competitive advantage and help differentiate themselves in their respective industries. As part of that effort, Dynomax has secured a new strategic partner agreement with YASKAWA MOTOMAN to provide services in industrial automation and robotics. Founded in 1989, Yaskawa Motoman is a wholly owned subsidiary of Yaskawa Electric Corporation, a worldwide leader in mechatronics and robots.
