Subject: Coronavirus Pandemic and Impact to Business

Dear Valued Suppliers:

The outbreak of the coronavirus (COVID-19) is changing the face of our nation as I write this. Our top priority is the health and safety of our families, employees, customers and suppliers. We understand that business is facing challenges that are unprecedented.

We feel it is critical to keep you as updated as possible as our manufacturing facilities are located in Illinois. This afternoon, Governor Pritzker issued a "Shelter in Place Order" instructing many businesses to close as a means of combatting COVID-19. Referenced in this order was a list of critical infrastructure sectors that are exempt from the order. We believe we are exempt due to the nature of our business: Aerospace Manufacturing and the Defense Sector.

Dynomax Inc. will continue to operate as usual and follow the best recommendations from the CDC regarding, social-distancing protocols and minimizing the congregation of groups. We will follow up with further communication on any new directives from leadership or the Government. Let us know if anything will be changing with your facility and take care.

Regards,
